Valiant Group
Core Values Achieve Results

Creating Clarity from Construction Chaos

Capabilities Statement developed for Providing exceptional services in Commercial Construction, Utility & Renewable Construction, Construction Management, Onsite Safety, and Commissioning

Mission: Manage and Execute Complex Construction projects in the Diverse Market

Guarantee: We have a proven and proprietary process that allows us to guarantee that you will always have an accurate and real-time status on your project

4 Bold Beliefs:

- Military service members possess leadership, problem solving, and risk management skills that directly correlates to your construction success
- Managing and executing construction is hectic and unpredictable, but we thrive in the chaos to ensure success
- Your construction success is dependent on us developing high performing teams through relationships, candor, debate, and inclusiveness
- No one enjoys re-work and waiting around for answers, so we expect our team and yours to be available weekly, to confirm work in-place, commitments, key deliverables, and risks

Differentiators

- Eighty years (80yrs) combined experience in managing and executing both electrical utility and commercial construction projects
- Lean Construction Philosophy and system that reduces waiting and re-Work
- Licensed professional engineers, certified construction managers, certified quality managers, and certified safety professionals on staff
- We recruit, hire, and train veterans for the electrical utility and commercial construction industry to leverage their military experience

Past Performance

- **Construction Management & Onsite Safety** for **National Grid** in Buffalo, NY and Niagara Falls, NY
- Ensured project was constructed per plans and specifications
- Work supported National Grid's rebuild of a 12kV distribution line
- Construction Costs totaled \$7 Million

- **Construction Management and Commissioning services** for the **Department of Veterans Affairs**
- Oversight \$60 Million Energy Savings Performance Contract
- Electrical Switchgear upgrade is key scope of work
- Developed Pre-Construction checklists to meet energy standards

- **General Contractor Department of Veterans Affairs**
- Procured and installed **Fall Protection Arrest Systems**
- Construction costs totaled \$700k
- Fall protection systems installed on multiple buildings
